

INDEX OF SUBJECTS

Original Articles

A

- Abscess(es), brain, *Cladosporium trichoides* variant causing, 747
Absorption technic(s)
 to eliminate cross-reactivity of commercial anti-CEA sera, 25
 for HLA typing of cultured amniotic fluid cells, 186
Accuracy, CAP data compilation (book review), 139
Achalasia, ultrastructure of esophageal muscle in, 312
Acid phosphatase
 activity in Reed-Sternberg cells, 553
 cutaneous lymphoma classification using, 157
 prostatic, monoclonal antibody-based immunoradiometric assay for, 114
Acquired immune deficiency syndrome
 disseminated *Mycobacterium avium-intracellulare* infection in, histologic and immunologic study, 247
 lymphadenopathy in homosexual men and, 559
Adenocarcinoma, endocervical, immunohistochemical localization of carcinoembryonic antigen in, 105
Adenoma(s)
 thyroid, ultrastructural morphometry, 166
 villous, of urinary bladder, with deletion of terminal tissue isoantigen, 728
Agarose electrophoresis. See under Electrophoresis
Age, reference intervals and, for chemistry and hematology tests in adult males, 574
Agranulocytosis, autoimmune, with absence of myeloid precursors, R binder for cobalamin in, 611
Alanine aminotransferase, elevation during marathon training, 716
Alcoholic hepatic disease, nature and origin of proliferated bile ductules in, 326
Alkaline phosphatase, normal, in persistent active hepatic necrosis, 505
Alpha-1-antitrypsin deficiency, hepatocyte inclusions and liver disease in, 697
Alternative complement pathway. See under Complement
Aluminum, glomerular basement membrane dense deposits containing, energy dispersive x-ray analysis for identification (letter), 267
Amniotic fluid
 HLA typing of cultured cells from, 186
 phospholipid quantification for predicting respiratory distress in newborn, 52
Ampicillin, *Hemophilus influenzae* resistance to, 73
Amylase, in extra-ovarian serous carcinoma, 633
Analysis(-es), chemical. See particular analytes; Reference values
Anemia(s)
 See also Thalassemia
 autoimmune hemolytic, enzyme-linked immunosorbent assay for red blood cell antibody detection in, 182
 megaloblastic, platelet size in (letters), 274, 275
 sickle cell. See Sickle cell syndromes
Anion gap, quality control of electrolyte analyzers using, 688
Anisocytosis, in melanoma (letter), 268
Antibody(-ies)
 antikeratin, keratin demonstration in neoplasms using, 458
 Candida, solid-phase radioimmunoassay for monitoring kinetics of, in candidiasis diagnosis, 200
 erythrocyte, enzyme-linked immunosorbent assay for detection of, in autoimmune hemolytic anemia, 182
 monoclonal
 air-dried imprint preparations from lymphoid tissue for immunoperoxidase technic using, 438
 to common surface antigen of ovarian tumors, 98
 immunoradiometric assay for prostatic acid phosphatase using, 114
 lymphoblastic lymphoma with phenotype of common acute lymphoblastic leukemia identified with, 387
 phenotype of hairy cells in leukemic reticuloendotheliosis studied with, 431
OC125, immunopathologic characterization of, 98
rubella, enzyme-linked immunosorbent assay for screening and quantitation, 206
Anticoagulant(s). See particular anticoagulants
Antigen(s)
 blood group
 loss in condyloma acuminatum of uterine cervix, 178
 loss in villous adenoma of urinary bladder, 728
 Rh mosaicism and aberrant MNs expression in chronic myelogenous leukemia, 397
carcinoembryonic
 immunoabsorption technic for eliminating cross-reactivity of commercial anti-CEA sera, 25
 immunocytochemical localization in cervical neoplasia, 414
 immunohistochemical localization in microglandular hyperplasia and adenocarcinoma of endocervix, 105
factor VIII-related
 in lymphatic endothelium in lymphangiomatosis, 625
 Ulex europeae I lectin compared to, as endothelial tumor marker, 32
hepatitis B surface, staining method (letter), 648
HLA
 typing, of cultured amniotic fluid cells, 186
 typing, interlaboratory reproducibility, 569
Ia-like, in histiocytosis-X cells, 294
T4, in histiocytosis-X cells, 294
T6, in histiocytosis-X cells, 294
tumor-associated, in ovarian tumors, monoclonal antibody reacting with, 98
Antiglobulin test(s), direct and enzyme-linked compared, for red blood cell antibody detection in autoimmune hemolytic anemia, 182
Antimicrobial removal device, microbiological and clinical evaluation (letter), 274
API-20E^{*}
 comparative evaluation, 367
 same-day modification, Enterobacteriaceae identification with, comparative evaluation, 683
A.P.U.D. concept
 mucus-producing medullary thyroid tumor casts doubt on (letters), 521, 522
 neuron-specific enolase in neuroendocrine tumors and, 703
Aspartate aminotransferase (SGOT), normal, in persistent active hepatic necrosis, 505
Aspergillus, autofluorescence of, 587
Aspiration biopsy. See under Biopsy(-ies)
Assay(s)
 See also Radioimmunoassay(s); particular substances
 colorimetric, for urine specific gravity, evaluation, 722
 enzyme-linked immunosorbent (ELISA)
 for erythrocyte antibodies, in autoimmune hemolytic anemia, 182
 for rubella antibody, evaluation, 206
 immunoradiometric, monoclonal antibody-based, for prostatic acid phosphatase, 114
Autofluorescence, fungal, with ultraviolet illumination, diagnostic utility, 231, 587

Autoimaging, nidus identification with, in osteoid osteoma, 223
 Autoimmune agranulocytosis. See under Agranulocytosis
 Avidin-biotin complex method, terminal deoxynucleotidyl transferase activity detection by, in bone marrow, 277

B

Bacteremia, *Staphylococcus aureus*, hospital-wide outbreak, 598
 Bacterium(-a)
 See also individual families, genera and species
 defective clearance of, in xanthogranulomatous inflammations, 637
 identification
 methods comparison, 367
 rapid, methods comparison, 683
 Bacteroides, capsule demonstration by light microscopy and ultrastructural cytochemistry, 591
 Basement membrane, detection of, in soft tissue tumor diagnosis, 306
 B-cell lymphoma. See under Lymphoma(s)
 Beta-lactamase, production of, by *Hemophilus influenzae* biotypes, 73
 Bile ductule(s), proliferated, in alcoholic hepatic disease, 326
 Bilirubin, serum, normal, in persistent active hepatic necrosis, 505
 Biochemical profile(s). See under Profile(s)
 Biopsy(-ies)
 aspiration
 of kidney, immunofluorescence microscopy of paraffin-embedded specimens, 489
 of marrow, with clot sections, for histoplasmosis diagnosis in marrow transplant patient, 509
 melanoma cytology (letter), 268
 vitreous, cryptococcal endophthalmitis diagnosed by, 382
 gastric, in cytomegalic inclusion disease diagnosis, 493
 marrow
 with clot sections, for histoplasmosis diagnosis in marrow transplant patient, 509
 in hairy cell leukemia diagnosis and staging, 531
 renal
 direct immunofluorescence with liquid fixative, 108
 fine-needle aspiration, immunofluorescence microscopy of paraffin-embedded specimens, 489
 Bladder, villous adenoma of, with deletion of terminal tissue isoantigen, 728
 Blastomyces, autofluorescence of, 587
Blastomyces dermatitidis, commercial exoantigen test system for identification evaluated, 379
 Blastomycosis, primary cutaneous (inoculation), 253
 Blood. See Smear(s); Transfusion(s); particular constituents and determinations; and under Culture(s); Specimen(s)
 Blood group antigen(s). See under Antigen(s)
 B lymphocyte(s). See under Lymphocyte(s)
 Bone(s)
 lytic lesions of, in chronic lymphocytic leukemia, 616
 tumors, benign, with fibrous dysplasia, 630
 Bone marrow. See Marrow
 Brain abscess(es), *Cladosporium trichoides* variant causing, 747
 Breast carcinoma
 estrogen receptor detection in, histochemical fluorescent technique (letters), 145, 146
 glycogen-rich clear cell, light and ultrastructural study, 243
 BTG. See β -Thromboglobulin, under T.
 Budgeting, capital, mathematical model for simultaneous financial evaluation of alternatives, 87
 Buffy-coat smear. See under Smear(s)

C

Calcific embolus. See under Embolus(-i)
 Calculus(-i), staghorn, adenosquamous carcinoma of renal pelvis with, 731

Cancer. See Carcinoma(-s); Metastasis(-es); Tumor(s); particular sites and types
 Candida, autofluorescence of, 587
 Candidiasis, diagnostic value of monitoring kinetics of antibody response in, 200
 Capillariasis, hepatic, clinicopathologic features, 127
 Capital budgeting. See under Budgeting
 Capsule(s), Bacteroides, demonstration of, by light microscopy and ultrastructural cytochemistry, 591
 Carcinoembryonic antigen. See under Antigen(s)
 Carcinoma(s)
 See also particular types
 adenosquamous, of renal pelvis, with staghorn calculi, 731
 breast. See Breast carcinoma
 cervical, immunocytochemical localization of carcinoembryonic antigen, α -fetoprotein, and human chorionic gonadotropin in, 414
 hepatocellular, hyaline globules and intracellular lumina in, 392
 islet cell, with clear cells, 512
 neuroendocrine, primary, of skin, clinical, histologic and ultrastructural study, 6
 oat cell, acute leukemia after successful therapy for, 122
 papillary serous, of retroperitoneum, 633
 renal cell
 in chronic renal failure patients, 238
 morphologic differentiation from renal oncocytoma, 312
 thyroid. See under Thyroid
 trabecular, of skin. See Carcinoma(s), neuroendocrine
 urothelial, in long-term dialysis patients, 238
 Carotid body, paraganglioma of, in multiple endocrine neoplasia (letters), 520, 520
 C cell(s), thyroid, neuroectodermal origin supported (letters), 521, 522
 CEA. See Antigen(s), carcinoembryonic
 Cell(s)
 See also Cyto- entries; particular cells, e.g. C cell(s); Lymphocyte(s)
 clear, in islet cell tumor, 512
 goblet, in medullary thyroid carcinoma (letters), 521, 522
 hairy
 biochemical, morphologic, immunocytochemical and functional characteristics, 733
 phenotype of, in leukemic reticuloendotheliosis, 431
 malignant, normal and hyperplastic differentiated from, by lectin binding (letter), 143
 Centrifugation, microhematocrit, for autologous red blood cell recovery after transfusion, simplified method, 364
 Cerebrospinal fluid
 alpha-hemolytic streptococci in, clinical significance, 195
 oligoclonal banding in
 with polyacrylamide gel electrophoresis, 112
 radiocontrast dyes' effects on, 607
 Cervical intraepithelial neoplasia, papillomavirus-associated lesions and (notice), 523
 Cervicitis, chlamydial, detection of, by Pap smear, 421
 Cervix
 See also Endocervix
 neoplasia
 See also Cervical intraepithelial neoplasia
 immunocytochemical localization of carcinoembryonic antigen, α -fetoprotein, and human chorionic gonadotropin in, 414
 CFU-E. See Erythroid colony(-ies)
 Chemistry, reference values in. See Reference values
Chlamydia trachomatis, cervicitis due to, Pap smear for detection of, 421
 Chloroacetate esterase, staining for, for Auer rod demonstration in microgranular acute promyelocytic leukemia, 621
 Cholangiole(s). See Bile ductule(s)

- C**olesterol
distribution in lipoproteins, vitamin E effect on, 604, 714
reference values based on health (editorial), 402
- Chromosome analysis, high-resolution, simple, rapid technic for lymphocytes, 481
- Cirrhosis
alcoholic. See Alcoholic hepatic disease
PAS-positive, diastase-resistant globules in hepatocytes and, 697
- Cladosporium trichoides* var. *chlamydosporum*, brain abscess due to, 747
- Clinical usefulness. See Medical utility
- Clostridium difficile*, toxin detection in stool filtrates, counterimmunoelctrophoresis for, 370, 375
- CNAP (cytotoxicity negative absorption positive) phenomenon, in HLA typing of cultured amniotic fluid cells, 186
- Coagulation test(s), for lupus inhibitor identification, 678
- Cobalamin. See Vitamin B₁₂
- Coccidioides, autofluorescence of, 587
- Coccidioides immitis*, commercial exoantigen test system for identification evaluated, 379
- Colitis, pseudomembranous. See Pseudomembranous colitis
- College of American Pathologists, clinical laboratory improvement programs, data compilation (book review), 139
- Colony-forming unit-erythroid. See Erythroid colony(-ies)
- Colorimetric assays. See under Assay(s)
- Complement
alternative pathway
depletion with other values near normal, 65
kinetics studied with electron spin resonance spectroscopy, 674
optimal reaction conditions for assay of, 65
- C1q, nephelometric assay of immune complexes using, 451
- Computer(s)
See also Image analysis; Microcomputer(s)
interpretive reporting system for creatine kinase and lactate dehydrogenase isoenzyme determinations, 217
microfilm system for surgical pathology records, 467
multifunction network for word processing, data base management and general purpose computing, 472
- Concanavalin A, binding of, to plasma membrane (letter), 143
- Condyloma acuminatum, of uterine cervix, isoantigen loss in, 178
- Condyloma virus. See Papillomavirus, human
- Contact activation factor(s), deficiencies, skin window as monitor of leukocytic functions in, 405
- Contaminant(s), in cerebrospinal fluid specimens, alpha-hemolytic streptococci, 195
- Control. See Reference material(s)
- Cost control. See Budgeting
- Coulter Counter® Model S, osmotic errors in mean corpuscular volume on (letters), 143, 755
- Coulter Counter® Model S-Plus, osmotic errors in mean corpuscular volume on (letters), 143, 755
- Counter(s)
See also particular models
platelet, mean platelet volumes on reference controls (letters), 649, 651
- Counterimmunoelctrophoresis, *Clostridium difficile* toxin detection with, in stool filtrates, 370, 375
- Creatine kinase
isoenzyme determinations, computer-assisted interpretive reporting system, 217
- MB
ectopic production of, in metastatic cancer, 255
elevation, during marathon training, 716
reference ranges for, racial and gender influences on, 582
- Critical path, in network planning, 353
- Critical Path Method (CPM), network planning using, in laboratory research and development, 353
- Cross-reactivity, of commercial anti-CEA sera, immunoabsorption technic for eliminating, 25
- Cryoglobulinemia, mixed IgG-IgM, renal glomerular lesions in, 147
- Cryptococcus, autofluorescence of, 587
- Cryptococcus neoformans*, membrane filtration and mucicarmine histochemistry for identification of, 382
- Culture(s)
blood, antimicrobial removal device processing of, evaluation (letter), 274
- McCoy cell, Pap smear compared to, for chlamydial cervicitis detection, 421
- Cyst(s), renal, acquired, in chronic renal failure patients, 238
- Cystitis glandularis, villous adenoma with deletion of terminal tissue isoantigen associated with, 728
- Cytochrometry
See also Immunocytochemistry; Stains and staining; particular procedures
of granular acute lymphoblastic leukemia, 426
of Reed-Sternberg cells in lymph node imprints, 553
of secondary acute nonlymphocytic leukemia, 525
ultrastructural, *Bacteroides* capsule demonstration with, 591
- Cytogenetics, of granular acute lymphoblastic leukemia, 426
- Cytology
See also Cell(s); particular cells; Ultrastructure
cervical, culture compared to, for chlamydial cervicitis detection, 421
membrane filtration, *Cryptococcus neoformans* identification using, 382
- Cytomegalic inclusion disease, gastric, histologic examination of endoscopic biopsy in diagnosis, 493
- Cytometry, flow, DNA analysis of medullary thyroid carcinoma, 172
- Cytotoxicity technic(s), for HLA typing of cultured amniotic fluid cells, 186
- Cytotoxin assay, counterimmunoelctrophoresis compared to, for *Clostridium difficile* toxin detection in stool filtrates, 370, 375
- D**
- Data processing. See Computer(s)
- Data reduction technic(s), proficiency testing results affected by (letters), 265, 267
- Desmoplastic fibroma, with fibrous dysplasia, 630
- Diagnosis
See also particular diseases and procedures
lectin binding in differentiation of malignant from normal and hyperplastic epidermal tissues (letter), 143
- Dialysis. See Hemodialysis
- Diarrhea, antibiotic-induced, counterimmunoelctrophoresis for *Clostridium difficile* toxin detection in stool filtrates in, 370, 375
- Differential leukocyte count. See under Leukocyte(s), count
- N-(7-Dimethylamino-4-methylcoumarinyl)-maleimide, disulfide bond detection with, in subepidermal hyaline bodies for differentiation of lichen planus and lupus erythematosus, 486
- Ductular transformation, of hepatic cords, in alcoholic hepatic disease, 326
- Dye(s), radiocontrast, effects on oligoclonal banding in cerebrospinal fluid, 607
- E**
- Education
additional clinical training needed? (letters), 270, 270
in laboratory testing (editorial), 260
method using student's own laboratory results, 211
- Electrolyte(s), analysis, quality control using anion gap, 688
- Electron-dense deposit(s), in renal glomerulus, in cryoglobulinemia, 147

Electron microscopy

See also Ultrastructure

hyaline globules and intracellular lumina in hepatocellular carcinoma, 392

immunoperoxidase study of Russell bodies with (letters), 262, 264, 265

morphometry of thyroid tumors using, 166

Electron spin resonance spectroscopy. See under Spectroscopy

Electrophoresis

See also Counterimmunoelctrophoresis

agarose, for oligoclonal bands in cerebrospinal fluid, radiocontrast dyes' effects on, 607

polyacrylamide gel, for oligoclonal bands in cerebrospinal fluid, 112

serum protein, in plasma cell dyscrasia monitoring, interassay variability in, 227

Embolus(-i), calcific, in lungs of bone marrow transplant patients, 360

Emphysema, PAS-positive, diastase-resistant globules in hepatocytes and, 697

Endocarditis, *Pseudomonas alcaligenes*, 245

Endocervix

adenocarcinoma, immunohistochemical localization of carcinoembryonic antigen in, 105

microglanular hyperplasia of, immunohistochemical localization of carcinoembryonic antigen in, 105

Endophthalmitis, cryptococcal, diagnosis by vitreous aspiration membrane filtration cytology, 382

Endothelium

lymphatic, factor VIII-related antigen in, in lymphangiomatosis, 625

Ulex europaeus I lectin as marker for, 32

Enolase, neuron-specific, in neuroendocrine tumor identification, 703

Entamoeba polecki, in Indochinese refugees, 502

Enterobacteriaceae(e)

See also particular species

same-day identification, automated and manual methods compared, 683

Enterotube II®, comparative evaluation, 367

Enzygnost™-Rubella, screening and quantitative testing with, evaluation, 206

Enzyme-linked immunosorbent assay. See under Assay(s)

Eosinophil(s)

humoral and cellular studies of, in reactive and myeloproliferative syndromes, 301

metabolism, immune complexes' effect on, 301

Erythrocyte(s)

antibodies. See under Antibody(-ies)

autologous, recovery from transfused patient, simplified method, 364

microcytic. See Microcytosis

morphology in sickle cell anemia

image processing analysis of, 667

painful crises and, 667

Erythroid colony(-ies), in peripheral blood, in polycythemia vera, 496

Escherichia coli, mucoid, in xanthogranulomatous pseudotumor of vagina, 637

Esophageal muscle, in achalasia and diffuse esophageal spasm, ultrastructural study, 312

Esophageal spasm, diffuse, ultrastructure of esophageal muscle in, 312

Esterase(s), nonspecific, cutaneous lymphoma classification using, 157

Estrogen receptor(s)

in breast cancer, histochemical fluorescent technic for demonstration of (letters), 145, 146

histochemical assay, estrogen-primed immature rat uterus as tissue control for, 484

Exoantigen test, commercial kits for fungal pathogen identification evaluated, 379

Eye(s), *Streptococcus equisimilis* (group C) infections of, 385

F

Factor VIII-related antigen. See under Antigen(s)

 α -Fetoprotein, immunocytochemical localization in cervical neoplasia, 414

Fibroma(s), desmoplastic. See Desmoplastic fibroma

Fibrosis, hepatic

in *Capillaria hepatica* infection, 127

PAS-positive, diastase-resistant globules in hepatocytes and, 697

Fibrous dysplasia, desmoplastic fibroma of bone arising in, 630

Filament(s), thick (myosin), in glomus tumor, 130

File systems. See Records

Finance. See Budgeting

Fixative(s), liquid, for direct immunofluorescence of renal biopsy, 108

Flow cytometry. See under Cytometry

Fluorescence

See also Autofluorescence; Immunofluorescence

malignant cells differentiated from normal and hyperplastic cells by (letter), 143

Fluorescent microscopy, fungus detection with, in tissue sections, 587

Folate, serum, data reduction technic effect on proficiency testing results (letters), 265, 267

Formalin, lectin binding affected by (letter), 143

Free erythrocyte protoporphyrin

methods comparison, 655

microcytic RBC disorder classification using, in adults, 661

normal values for adults, 655

Free thyroxine index, radioimmunoassay for free thyroxine compared to, 334

Fungus(-i)

See also particular genera

autofluorescence of, detection in tissue sections using, 231, 587

G

Gastrointestinal tract, cytomegalic inclusion disease of, histologic examination of endoscopic biopsy in diagnosis, 493

Gender, creatine kinase reference ranges and, 582

Gestation. See Pregnancy

Gilbert's syndrome, primary shunt hyperbilirubinemia with, 627

Globin synthesis, disorders of, free erythrocyte protoporphyrin test for identification of, in adults, 661

Glomerulonephritis, nonsystemic mesangiopathic, with "full house" immunofluorescence (letters), 273, 273

Glomerulus, aluminum-containing dense deposits in basement membrane, energy dispersive x-ray analysis for identification (letter), 267

Glomus tumor, thick (myosin) filaments in, 130

Glucose, blood levels, effect of, on mean corpuscular volume on electronic particle counters (letter), 143

Gonadotropin, human chorionic. See Human chorionic gonadotropin

Graft(s). See Marrow, transplantation

Granule(s), azurophilic, in lymphoblasts in acute lymphoblastic leukemia, 426

Granulocyte(s)

See also Eosinophil(s); Neutrophil(s)

sequence of functional differentiation of, 45

H

Haemophilus. See *Hemophilus*

Hairy cell(s). See under Cell(s)

Hairy cell leukemia. See under Leukemia(s)

Hayflick medium, modified New York City medium compared to, for *Mycoplasma pneumoniae* growth, 235

HDL-cholesterol. See Cholesterol, distribution in lipoproteins

Heavy chain disease, gamma, immunopathology of (letters), 520, 521

- Hemagglutination-inhibition, enzyme-linked immunosorbent assay compared to, for rubella antibody detection, 206
- Hematofluorometer, evaluation, 665
- Hematogene(s), terminal deoxynucleotidyl transferase-positive cells identified as, 277
- Hematologic profile(s). See under Profile(s)
- Hematology, reference values in. See Reference values
- Hematopoiesis, intravascular, in chorionic villi, 225
- Heme synthesis, disorders of, free erythrocyte protoporphyrin test for identification of, in adults, 661
- Hemodialysis, acquired renal cysts and multiple renal cell and urothelial tumors in patients on, 238
- Hemophilus influenzae*, biotypes, relationship to site of isolation, serotype and antibiotic susceptibility, 73
- Heparin, effect on alternative complement pathway assay, 65
- Hepatitis, antigens. See under Antigen(s)
- Hepatocyte(s), PAS-positive, diastase-resistant globules in, liver disease and, 697
- Histiocytic lymphoma. See under Lymphoma(s)
- Histiocytosis X, in situ characterization of cutaneous infiltrates with monoclonal antibodies, 294
- Histiocytosis-X cell(s), marker for, 294
- Histochemical fluorescent technic, for estrogen receptors in breast carcinoma (letters), 145, 146
- Histoplasma, autofluorescence of, 587
- Histoplasma capsulatum*, commercial exoantigen test system for identification evaluated, 379
- Histoplasmosis
- disseminated, after bone marrow transplantation, 509
 - pulmonary, thrombocytopenia and elevated platelet IgG with, 644
- HLA antigens. See under Antigen(s)
- Hodgkin's disease, cytochemistry of Reed-Sternberg cells in, 553
- Homosexual man(-en), lymphadenopathy in, morphologic, clinical and immunologic findings, 559
- Human chorionic gonadotropin, immunocytochemical study of cervical neoplasia for, 414
- Human papillomavirus. See Papillomavirus, human
- Hyaline body(-ies), subepidermal, detection of disulfide bonds in, for differentiation of lichen planus from lupus erythematosus, 486
- Hyaline globule(s), in hepatocellular carcinoma, morphogenesis of, 392
- Hybritech-TANDEM PAP assay, evaluation, 114
- Hyperbilirubinemia, primary shunt, with Gilbert's syndrome, 627
- Hypercalcemia, in chronic lymphocytic leukemia with lytic bone lesions and monoclonal protein, 616
- Hyperglycemia, spurious elevation of mean corpuscular volume by, on electronic particle counters (letters), 143
- Hyperinsulinism, islet-cell hyperplasia and pancreatic exocrine cell degranulation with, in adults, 14
- Hypermagnesemia, high prevalence of, in hospitalized patients, 348
- Hyperplasia
- islet-cell, pancreatic exocrine cell degranulation with, in hypoglycemic adults, 14
 - lymph node, in homosexual men, clinical and immunologic correlations, 559
 - microglandular, of endocervix, immunohistochemical localization of carcinoembryonic antigen in, 105
- Hyperthyroidism, radioimmunoassay for free thyroxine in diagnosis of, 334
- Hypoglycemia, hyperinsulinemic, in adults, islet-cell hyperplasia and pancreatic exocrine cell degranulation with, 14
- Hypomagnesemia, high prevalence of, in hospitalized patients, 348
- Hyponatremia, mean corpuscular volume and, on electronic particle counters (letters), 143, 758
- Hypothyroidism, radioimmunoassay for free thyroxine in diagnosis of, 334
- Ia-like antigen. See under Antigen(s)
- IgA nephropathy. See under Nephropathy(-ies)
- IgG. See under Immunoglobulin(s)
- Image analysis, of red blood cells, in sickle cell anemia, 667
- Immune complex(es)
- C1q precipitable, measurement of, by nephelometric system, 451
 - oxidative response of eosinophils and, 301
- Immunochemistry. See particular technics
- Immunocytochemistry
- See also particular technics
 - carcinoembryonic antigen, α -fetoprotein, and human chorionic gonadotropin localization in cervical neoplasia, 414
- Immunodeficiency, cellular
- See also Acquired immune deficiency syndrome in homosexual men with lymphadenopathy, 559
- Immunofluorescence
- "full house," in nonsystemic mesangiopathic glomerulonephritis (letters), 273, 273
 - keratin demonstration in neoplasms, using antikeratin antibodies, 458
 - liquid fixative for renal biopsy, 108
 - monoclonal antibody to common surface antigen of ovarian tumors studied with, 98
 - for terminal transferase detection (letters), 272, 272
- Immunofluorescent microscopy, of paraffin-embedded kidney specimens obtained by fine-needle aspiration biopsy, 489
- Immunoglobulin(s)
- IgG
- central nervous system synthesis of, in multiple sclerosis, immunonephelometric quantitation (letters), 144, 145
 - oligoclonal band demonstration in cerebrospinal fluid, with polyacrylamide gel electrophoresis, 112
 - platelet-associated, elevated, in pulmonary histoplasmosis with thrombocytopenia, 644
 - Russell bodies and (letters), 262, 264, 265
- Immunohistology, immunoabsorption technic for eliminating cross-reactivity of commercial anti-CEA sera, 25
- Immunonephelometry, central nervous system IgG synthesis quantitation with, in multiple sclerosis (letters), 144, 145
- Immunoperoxidase technic
- alpha-1-antitrypsin globules in hepatocytes identified with, 697
 - avidin-biotin-peroxidase complex. See Avidin-biotin complex method
 - carcinoembryonic antigen localization using, in endocervical adenocarcinoma and microglandular hyperplasia, 105
 - clear cell islet cell tumor studied with, 512
 - factor VIII-related antigen demonstrated with, in lymphatic endothelium of lymphangiomatosis, 625
 - isoantigen status in condyloma acuminatum of uterine cervix studied with, 178
 - lymphoblastic lymphoma with phenotype of common acute lymphoblastic leukemia identified with, 387
 - using monoclonal antibodies, air-dried imprint preparations from lymphoid tissues for, 438
 - Russell bodies studied with (letters), 262, 264, 265
 - S-100 protein staining with
 - in granular cell myoblastomas, 37
 - in normal tissues and tumors, 341
- Immunoradiometric assays. See under Assay(s)
- Inclusion(s)
- cytoplasmic, in chlamydial cervicitis diagnosis using Pap smear, 421
 - PAS-positive, diastase-resistant, in hepatocytes, liver disease and, 697
- Indochinese refugees, intestinal parasites among, 502

Infection(s)

See also particular pathogens

nosocomial, *Staphylococcus aureus* bacteremia, 598

Information retrieval. See Records; Reporting

Intravenous fluid(s), blood drawing site in patient receiving, 119

lophenidate, effects on oligoclonal banding in cerebrospinal fluid, 607

Iron, deficiency, free erythrocyte protoporphyrin test in diagnosis of, 661

Islet cell(s), proliferation of, with exocrine changes in pancreas, in hypoglycemic adults, 14

Islet cell tumor, clear cell, 512

Isoantigen(s), blood group. See under Antigen(s)

Isoelectric focusing, transferrin subtyping by, in parentage testing, 725

Isoenzyme(s). See under particular enzymes

K

Keratin, demonstration of, in neoplasms, using antikeratin antibodies, 458

Kidney(s)

See also Glomerulus; Nephropathy(-ies); Pelvis, renal

biopsy. See under Biopsy(-ies)

carcinoma. See Carcinoma(s), renal cell

failure, chronic, acquired renal cysts and multiple renal cell and urothelial tumors in, 238

immunofluorescence microscopy of paraffin-embedded specimens obtained by fine-needle aspiration biopsy, 489

morphologic differentiation of carcinoma from oncocytoma, 312

Kidney function test(s). See particular tests

Koilocytotic atypia, isoantigen status in, 178

L

Laboratory(-ies)

See also Proficiency testing; Quality control; Records; Reporting capital expenditures, mathematical model for simultaneous financial evaluation of alternatives, 87

interlaboratory comparisons

data reduction technic effect on results (letters), 265, 267

HLA-DR typing, 569

use of, educational program in, for medical students, 211; (editorial), 260

Lactate dehydrogenase

isoenzyme changes during marathon training, 716

isoenzyme determinations, computer-assisted interpretive reporting system, 217

release during platelet storage, platform, circular and elliptical rotators compared, 719

Laminin, immunohistochemical demonstration of, in soft tissue tumor diagnoses, 306

Langerhans' cell(s), abnormal, marker for, in histiocytosis X, 294

Lecithin, amniotic fluid, fetal pulmonary maturity and, 32

Lecithin-sphingomyelin ratio, amniotic fluid lipid quantification compared to, for predicting respiratory distress in newborn, 32

Lectin(s)

See also particular lectins

binding of, to plasma membrane (letter), 143

Legionella pneumophila, staining method for, 377

Leukemoid(s)

acute lymphoblastic

common, lymphoblastic lymphoma with phenotype of, 387

with cytoplasmic azurophilic granules, 426

acute myelomonocytic, after successful therapy for oat cell carcinoma, 122

acute nonlymphocytic, secondary contrasted with *de novo*, cytochemical and morphological study, 525

acute promyelocytic, microgranular variant, with Auer rods demonstrable only after chloroacetate esterase staining, 621

chronic lymphocytic, lytic bone lesions, hypercalcemia and monoclonal protein in, 616

chronic myelogenous, Rh mosaicism and aberrant MNS antigen expression in, 397

hairy cell

bone marrow histology in, diagnostic and prognostic significance, 531

characterization of neoplastic cells in, 733

phenotype of hairy cells in, 431

humoral and cellular studies of eosinophils in, 301

immunologic markers in differential diagnosis of small round cell tumors from, 546

therapy-related, morphologic and cytochemical study, 525

Leukemic reticuloendotheliosis. See Leukemia(s), hairy cell

Leukocyte(s)

See also Eosinophil(s); Granulocyte(s); Lymphocyte(s); Neutrophil(s)

count, differential, in buffy-coat smears of normal volunteers, 500

polymorphonuclear. See Neutrophil(s)

skin window as monitor of functions of, in contact activation factor deficiencies, 405

Lichen planus, differentiation from lupus erythematosus, histochemical technic, 486

Ligand assay, proficiency testing results, data reduction technic effect on (letters), 265, 267

Lipid(s), vitamin E effect on, 714

Lipofuscin(s), deposition in thyroid, in minocycline therapy, 738

Lipoprotein(s), cholesterol distribution. See under Cholesterol

Liver

See also Cirrhosis

Capillaria hepatica infection of, clinicopathologic features, 127

carcinoma, hyaline globules and intracellular lumina in, 392

persistent active necrosis with absence of abnormalities in laboratory test results, 505

Liver function test(s), normal, in persistent active hepatic necrosis, 505

Lumina, intracellular, in hepatocellular carcinoma, 392

Lung(s)

calcific emboli in vasculature, in bone marrow transplant patients, 360

oat cell carcinoma, acute leukemia after successful therapy for, 122

Lupus anticoagulant, laboratory diagnosis, methods comparison, 678

Lupus erythematosus, differentiation from lichen planus, histochemical technic, 486

Lymphadenitis, toxoplasmic, cyst demonstration in lymph node in, 125

Lymphadenopathy, in homosexual men, morphologic, clinical and immunologic findings, 359

Lymphangiomatosis, factor VIII-related antigen in lymphatic endothelium in, 625

Lymph node(s)

hyperplasia, in homosexual men, clinical and immunologic correlations, 359

imprints from, cytochemistry of Reed-Sternberg cells in, 553

toxoplasma cysts in, in toxoplasmic lymphadenitis, 125

Lymphocyte(s)

B air-dried imprint preparations of lymphoid tissue for immunohistochemical identification of, with monoclonal antibodies, 438

T typing, interlaboratory reproducibility, 569

T air-dried imprint preparations of lymphoid tissue for immunohistochemical identification of, with monoclonal antibodies, 438

- decreases, in acquired cell-mediated immunodeficiency, 247
reversed suppressor/helper ratio, in fungal brain abscess patient, 747
- Lymphoid tissue**
See also Lymph node(s); Spleen
air-dried imprint preparations from, for monoclonal antibody studies of cell surface markers, 438
- Lymphoma(s)**
See also Hodgkin's disease
B-cell, cutaneous, histochemical and immunohistochemical diagnosis, 157
cutaneous, histochemical and immunohistochemical characteristics, correlation with clinicopathologic features, 157
histiocytic, cutaneous, histochemical and immunohistochemical diagnosis, 157
immunologic markers in differential diagnosis of small round cell tumors from, 546
large cell, with microvillus-like projections, ultrastructural study, 443
lymphoblastic, with phenotype of common acute lymphoblastic leukemia, 387
T-cell
 cutaneous, histochemical and immunohistochemical diagnosis, 157
 peripheral, clinicopathologic study, 285
Lysosome(s), disorder of, in minocycline-induced thyroid discoloration, 738
- Lyzozyme**, cutaneous lymphoma classification using, 157
- M**
- Magnesium, serum, abnormalities in hospitalized patients, 348
Malakoplakia, defective clearance of unusual bacteria in, 637
Marathon training, serum enzyme changes during, 716
- Marker(s)**
See also Surface marker(s); particular markers
tumor
 keratin demonstration in epithelial tumors, using antikeratin antibodies, 458
 S-100 protein's usefulness as, 341
- Marrow
 biopsy. See under Biopsy(-ies)
 transplantation
 calcific emboli in lungs of patients, 360
 disseminated histoplasmosis complicating, 509
- Mean corpuscular volume, osmotic errors in, on electronic particle counters (letters), 143, 755
- Mean platelet volume
 guidelines for use needed (letter), 141
 modal platelet volume vs. (letters), 274, 275
 quality control of (letters), 649, 651
- Medical utility, of laboratory tests, evaluation procedure, 78
- Melanoma, aspiration biopsy cytology in diagnosis (letter), 268
- Membrane(s), plasma, concanavalin A binding to (letter), 143
- 2-Mercaptoethanol, high-resolution chromosome technic using, 481
- Merkel cell tumor(s). See Carcinoma(s), neuroendocrine
- Mesangium, "full house" immunofluorescence in, in nonsystemic mesangiopathic glomerulonephritis (letters), 273, 273
- Mesothelioma(s), extra-ovarian, amylase in, 633
- Metastasis(-es), ectopic creatine kinase MB production in, 255
- Metrizamide, effects on oligoclonal banding in cerebrospinal fluid, 607
- Microcomputer(s), capital budgeting technics using, 87
- Microcytosis, causes of, in adults, 661
- Microfilm, automated file system using, 467
- Microhematocrit centrifugation. See under Centrifugation
- Micro-ID®, same-day Enterobacteriaceae identification with, comparative evaluation, 683
- Microscopy**. See Electron microscopy; Fluorescent microscopy; Immunofluorescent microscopy
- Microspherocytosis, spuriously elevated platelet count due to (letter), 144
- Minocycline, black discoloration of thyroid with, histochemical and electron microscopic studies, 738
- Modified New York City medium, *Mycoplasma pneumoniae* growth on, 235
- Monoclonal antibodies. See under Antibody(-ies)
- Morphometry, ultrastructural, of thyroid tumors, 166
- Multiple endocrine neoplasia, radiation exposure and? (letters), 520, 520
- Multiple myeloma, graphic display of serial paraprotein concentrations in, 227
- Multiple sclerosis**
 immunonephelometric quantitation of central nervous system IgG synthesis in, diagnostic usefulness (letters), 144, 145
 polyacrylamide gel electrophoresis for demonstration of oligoclonal bands of IgG in cerebrospinal fluid in, 112
- Mycobacterium avium-intracellulare*, disseminated infection in homosexual men with acquired cell-mediated immunodeficiency, 247
- Mycoplasma pneumoniae*, modified New York City medium for detection of, 235
- Mycosis fungoides, histochemical and immunohistochemical diagnosis, 157
- Myoblastoma(s), granular cell, S-100 protein in, 37
- Myocardial infarction
 computer-assisted interpretive reporting of isoenzyme determinations in diagnosis of, 217
 elevated CK-MB in absence of, due to ectopic production, 255
 isoenzyme changes resembling, during marathon training, 716
- N**
- Neoplasia, multiple endocrine. See Multiple endocrine neoplasia
- Neoplasm(s). See Tumor(s); particular tumors
- Nephelometry, immune complex assay, 451
- Nephropathy(-ies)
 cryoglobulinemic, clinicopathologic features, 147
 IgA, "full house" immunofluorescence in (letters), 273, 273
- Nesidioblastosis, with islet-cell hyperplasia in hypoglycemic adults, 14
- Network planning, theory for laboratory research and development, 353
- Neurilemma cell(s), granular cell myoblastoma staining patterns and, 37
- Neutrophil(s)
 peripheral blood, metabolic activity of, in alternate complement pathway, 674
 sequence of functional differentiation of, 45
- Nevus(-i), giant pigmented, origin of placental nevus cells in patient with (letter), 141
- Nevus cell(s), placental, origin of, in patient with giant pigmented nevus (letter), 141
- N-Multistix SG reagent strips, evaluation, 722
- Normal tissues. See under Tissue(s)
- Normal values. See Reference values
- O**
- Oligoclonal banding, in cerebrospinal fluid
 polyacrylamide gel electrophoresis for demonstration of, 112
 radiocontrast dyes' effects on, 607
- Oncocytoma, renal, morphologic differentiation from renal carcinoma, 312

Ophthalmic. See Eye(s)

Orcein, hepatitis B surface antigen staining with, modification (letter), 648

Osteoid osteoma

autoimaging for nidus identification, 223
radionuclide scanning for localization of, 223

Ovary(-ies), tumors

extra-ovarian tumors resembling, 633
monoclonal antibody to common surface antigen of, 98

P

Pancreas, endocrine tumors of, exocrine changes with, in hypoglycemic adults, 14

Papanicolaou smear, chlamydial cervicitis detection by, 421

Papillomavirus, human

cervical epithelial lesions due to, interpretation (notice), 523
isoantigen loss in cervical infection with, 178

Paraffin-embedding, of kidney specimens obtained by fine-needle aspiration biopsy, for immunofluorescence microscopy, 489

Paraganglioma(s), carotid body, in multiple endocrine neoplasia (letters), 520, 520

Paraprotein(s)

interassay variability in serial determinations, 227
serial determinations in plasma cell dyscrasias, graphic display of results, 227

Parasite(s), intestinal, in Indochinese refugees, 502

Paternity testing, transferrin subtyping by isoelectric focusing, 725

Pathology. See Education; Reporting

Peliosis, of spleen, 708

Pelvis, renal, adenosquamous carcinoma of, with staghorn calculi, 731

Phage typing, *Staphylococcus aureus*, in hospital epidemiology, 598

Phosphatidylglycerol, amniotic fluid, fetal pulmonary maturity and, 52

Placenta

intravascular hematopoiesis in, 225
origin of nevus cells in, in patient with giant pigmented nevus (letter), 141

Plasma cell(s), immunoglobulins in, Russell bodies and (letters), 262, 264, 265

Plasma cell dyscrasia(s), graphic display of serial paraprotein concentrations in, 227

Platelet(s)

See also Mean platelet volume

count

mean platelet volume and (letter), 141
spurious elevation due to microspherocytosis (letter), 144
modal vs. mean volume (letters), 274, 275

storage, *in vitro* assessment of damage from platform, circular and elliptical rotation, 719

Platelet distribution width

guidelines for use needed (letter), 141
modal platelet volume and, in megaloblastic anemia (letters), 274, 275

Platelet neutralization procedure, lupus inhibitor identification using, comparative evaluation, 678

Polyacrylamide gel electrophoresis. See under Electrophoresis

Polycythemia vera, erythroid colonies in peripheral blood in, 496

Polyethylene glycol, immune complex extraction with, in nephelometric immune complex assay, 451

Precedence diagram, in network planning, 353

Predictive value, of immunonephelometric quantitation of central nervous system IgG synthesis in multiple sclerosis (letters), 144, 145

Pregnancy, first-trimester, intravascular hematopoiesis in chorionic villi in, 225

Proficiency testing

CAP data compilation (book review), 139
data reduction technic effect on results (letters), 265, 267
workload as factor in laboratory performance, 609

Profile(s), biochemical and hematologic, blood drawing sites and, in patients receiving intravenous fluids, 119

Program Evaluation and Review Technique (PERT), network planning using, in laboratory research and development, 353

Protein(s)

See also particular proteins
cobalamin-binding. See R binder
monoclonal urinary, in chronic lymphocytic leukemia, 616

Protoporphyrin, free erythrocyte. See Free erythrocyte protoporphyrin

Pseudomembranous colitis, counterimmunolectrophoresis for *Clostridium difficile* toxin detection in, 370, 375

Pseudomonas alcaligenes, fatal endocarditis due to, 245

Pseudotumor, xanthogranulomatous, of vagina, mucoid *Escherichia coli* in, 637

Q

Quality control

See also Proficiency testing; Reference material(s)

B-lymphocyte typing, interlaboratory comparison, 569

CAP data compilation (book review), 139

electrolyte analysis, using anion gap, 688

mean platelet volume (letters), 649, 651

R

Race, creatine kinase reference ranges and, 582

Radioimmunoassay(s)

See also particular substances

for free thyroxine, 334

solid-phase, antibody response monitoring with, in candidiasis, 200

Radionuclide scanning, osteoid osteoma localization using, 223

R binder, sources of, in plasma and secretions, 611

Receiver operating characteristic curve(s), in laboratory test evaluation, 78

Records

automated microfilm system for maintaining, 467

multifunction computer network for large pathology department, 472

Reed-Sternberg cell(s), cytochemistry of, in lymph node imprints, 553

Reference material(s)

for carcinoembryonic antigen detection with commercial anti-CEA sera, 25

for histochemical estrogen receptor assay, estrogen-primed immature rat uterus, 484

for mean platelet volume on electronic counters (letters), 649, 651

Reference values

for chemistry and hematology tests in adult males, age and sample distribution and, 574

creatinine kinase, racial and gender influences on, 582

free erythrocyte protoporphyrin, for adults, 655

health vs. statistical considerations in determining (editorial), 402

Renal failure. See under Kidney(s)

Reporting

See also Records

interpretive, computer-assisted, for isoenzyme determinations, 217

Research, network planning theory for, 353

Resident(s), additional clinical training needed? (letters), 270, 270

Respiratory distress syndrome, amniotic fluid lecithin, phosphatidylglycerol, L/S ratio and foam stability test in prediction of, 52

Reticuloendotheliosis, leukemic. See Leukemia(s), hairy cell

- Retroperitoneum, papillary serous carcinoma of, 633
 Rotator(s), for platelet storage, platelet damage on platform, circular and elliptical compared, 719
 Rubella, enzyme-linked immunosorbent assay for screening and quantitation of antibodies, 206
 Russell body(-ies), immunoelectron microscopic and immunoperoxidase studies (letters), 262, 264, 265

S

- Saliva, R binder in, sources of, 611
 Schwann cell. See Neurilemma cell(s)
 Screening
 See also particular conditions and tests
 biochemical, magnesium abnormalities in hospitalized patients, 348
 program evaluation (editorial), 135
 Section(s), clot, of marrow aspirate, in histoplasmosis diagnosis in marrow transplant patient, 509
 Sensitivity. See particular procedures
 Sézary's syndrome, histochemical and immunohistochemical diagnosis, 157
 SGOT. See Aspartate aminotransferase
 SGPT. See Alanine aminotransferase
 Sickle cell syndromes
 image processing analysis of red blood cell morphology in, 667
 red blood cell morphology and painful crises, 667
 Skin, primary neuroendocrine carcinomas of, clinical, histologic, and ultrastructural study, 6
 Skin window technic, leukocytic function monitoring with, in contact activation factor deficiencies, 405
 Slack, in network planning, 353
 Smear(s)
 See also Papanicolaou smear
 buffy-coat, differential count in normal volunteers, 500
 Soft tissue, tumors of, immunohistochemical demonstration of laminin in diagnosis of, 306
 Southeast Asian refugees. See Indochinese refugees
 Speciation, of alpha-hemolytic streptococci, importance in differentiating contaminants from clinically significant organisms, 195
 Specificity. See particular procedures
 Specimen(s), blood, site for drawing, in patient receiving intravenous fluids, 119
 Spectroscopy, electron spin resonance, alternate complement pathway kinetics studied with, 674
 Spleen
 lymphangiomatosis of, factor VIII-related antigen in lymphatic endothelial in, 625
 peliosis of, 708
 S-100 protein
 demonstration of, in normal tissues and tumors, immunoperoxidase technic, 341
 in granular cell myoblastomas, 37
 Stains and staining
 See also Cytochemistry
 method for *Legionella pneumophila*, 377
Staphylococcus aureus, bacteremia due to, hospital-wide outbreak, 598
 Stereology, ultrastructural, of thyroid tumors, 166
Streptococcus(-i), alpha-hemolytic (viridans), clinical significance in cerebrospinal fluid, 195
Streptococcus equisimilis (group C), ophthalmic infections caused by, 385
 Substance P, in clear cell islet cell tumor, 512
 Surface marker(s)
 air-dried imprint preparations from lymphoid tissue for monoclonal antibody studies of, 438

- immunologic, differential diagnosis of small round cell tumors from leukemia and lymphoma using, 546
 Susceptibility testing, *Hemophilus influenzae* biotypes and, 73

T

- T₄. See Thyroxine
 T-cell lymphoma. See under Lymphoma(s)
 Terminal deoxynucleotidyl transferase
 in bone marrow cells in absence of hematologic malignancy, 277
 immunofluorescent assay (letters), 272, 272
 Test(s)
 See also particular tests and types of tests; Reporting evaluating clinical efficacy of, 78
 ordering and interpretation of, educational program for medical students, 211; (editorial), 260
 Thalassemia, free erythrocyte protoporphyrin test in diagnosis of, 661
 Thrombocytopenia, pulmonary histoplasmosis with, 644
β-Thromboglobulin, release during platelet storage, platform, circular and elliptical rotators compared, 719
 Thyroid
 black discoloration of, with minocycline therapy, histochemical and electron microscopic studies, 738
 carcinoma
 medullary, flow cytometric DNA analysis of, 172
 mucus-producing medullary (letters), 521, 522
 papillary, in multiple endocrine neoplasia (letters), 520, 520
